

I am an OTR Truck driver that has found the instant weather and traffic updates to be a extremely useful tool in the everyday duties of my employment. It forewarns me of traffic tieups that I can then avoid to make sure my customers receive their freight in a timely manner and also by avoiding the traffic jams, I don't add to the problem. XM satellite radio is a constant companion providing me with music and news as I travel accross the country, without having to hunt for local stations.

I respectfully urge the FCC to reject the "NAB'S petition 04-160" and support XM's radio to provide the kind of programming that I demand and deserve.

Thank You for your consideration in keeping XM radio's ability to provide news and entertainment that I purchased my equipment to enjoy.

Sincerely, Nolin D. Clark
